

Testimonies

Every Sup de Co Reims graduate has lived a unique experience – their experience at the school. As you know, Sup de Co Reims is the school of choice for all fields of study: academic, professional, and associative alike. Each of its students and graduates continues to live their school for the rest of their lives.

Thomas LAM, 2006 graduate

I now work as Human Resources Manager for an SME employing 500 people. My time at the school was certainly a rewarding experience. As President of the BDE in 2003/2004, I had the chance to manage a team and a large budget, and to create events.

In parallel, I was interested in management control and took a 9-month course in Geneva at Moët Hennessy Switzerland. I also took part in a summer program in Peking.

When I finished my studies, I went into partnership with two friends from my year to set up ABC CLIC, a personal services company specializing in training in computer science tools. Two years later, we sold our company to PC30 SA, the market leader in computer services. After the buyout, PC30's management put me in charge of the company and its subsidiaries' human resources.

The school enabled me to gain experience in a wide range of areas – academic, international and personal alike – that are still of use to me today in my career. A word of advice: take the time to learn and discover in class, and also through traveling, university exchange programs, and associative life!
